

Homework Roadmap

Use this guide to get the most out of homework and better prepare for tests.

1 Take Notes in Class

- Write everything the instructor writes.
- Add explanations on why and how problems are solved.

2 Learn Material after Class

- Review notes from class, focusing on the explanation behind each step.
- Explore resources including eTextbook, videos, SI.
- Work a few examples until no resources are needed (notes, textbook, etc.).

3 Practice Homework

- Treat homework like a quiz/test.
- Work problems without using notes, referring to textbook, using guided examples, or asking for assistance.

4 Check Understanding

- Note problems where resources were needed.
- Practice additional similar problems until mastered.
